## ENGINEERING

Anuj Engineering is an ISO 9001:2015 (TUV-NORD) firm established in the year 1981, in Ahmedabad, India, as a small scale-manufacturing unit specializing in precision turned parts, manufactured as per customer's drawings and specifications.

Our firm started off by manufacturing and supplying high precision components like CNC Turned Parts, parts manufactured on Traub Automats, Thread Rolling Machine, Centerless Lathe Machines and Centerless Grinding Machine.

Over a period of 40 years since inception, the company has expanded its expertise and is currently catering the Hydraulic System Industry and Textile machinery manufacturers. Our company is proudly involved in developing specialized products resulting in import substitution for our clients. We have a core staff of 44 people.

Our main clients are -
Bosch Rexroth India Private Limited and
Trutzschler India Private Limited.

TUV NABCB QM 002

Rexroth Bosch Group

TRÜTZSCHLER

Regd. Office & Works : 8/7, SIM Estate, Kalidas Mills Compound, Gomtipur, Ahmedabad - 380021, INDIA

# COMPONENTS -

Our firm specializes in manufacturing precision parts as per customers drawings.
Some of the components are as follows -

Full Threaded Spindles of fine pitch and regular pitch threads (mm)

Special purpose Washers and Shims

Hydraulic Spools for flow control

Threaded pins

Eccentric Pins

Various types of Bushes and Covers

8.8 Quality LN Bolts and Hex Bolts

# COMPONENTS-

Parts from SS 304

Brass and Phosphorous bronze parts

Zinc Plated Pins

Shims and measuring guages from SS and Spring steel material

# CNC SHOP

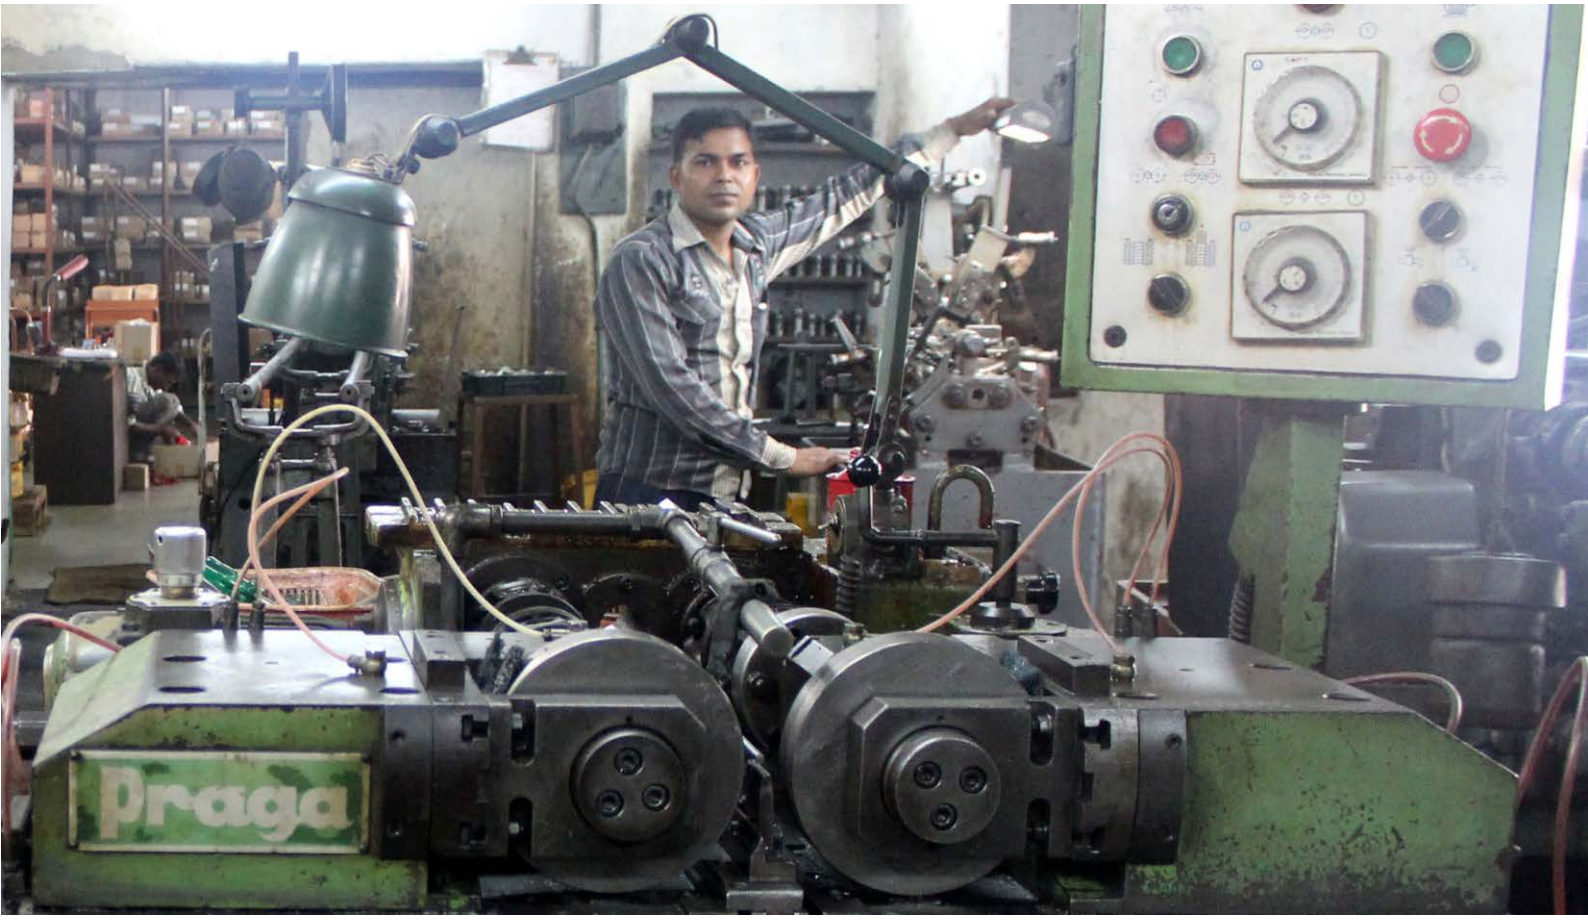

CNC Turning Centers : Eight Machines [Jyoti Make] DX-200

- Diameter Cap : 300 mm
- Turning Length : 500 mm

# MACHINE SHOP -

Traub automats, Thread rolling machine, Centerless grinding machine.

# INSPECTION ROOM

## MEASURING INSTRUMENTS-

-Digital and Mechanical measuring instruments.

-Thread Plug gauges and Ring gauges.

-Profile Projector with computerized Digital readout. [ Dynascan ]

-Hardness tester

# Packing and Stores

Ultrasonic cleaning machines

Finished goods stores

# OUTSOURCING

Our firm has developed a strong network of vendors for the following *processes* :

Heat treatment,
Zinc plating,
Blackening and Phosphating,
Nitriding,
Surface grinding,
Steel bars straightening,
CNC Vertical milling, DRO milling,
Manufacturing jigs and fixtures,
Sheet metal components

We also have qualified vendors for providing *raw materials* such as :

-Alloy steel material
-Non ferrous material like stainless steel, brass, aluminium, etc.
